EXCELLENCE IN MANUFACTURING FOR OVER 65 YEARS

ISO 9001-2008
Certified

FABRICATION · LASER CUTTING · STEEL STAMPING
TUBE BENDING · WATER JET CUTTING
CAPS & TARGETS · FORGING · TUBE LASER CUTTING

At Livonia Tool & Laser, we succeed when you succeed. With over 65 years of family-owned manufacturing excellence serving an increasingly diverse group of customers, we have the people, tools and technology to exceed your needs and deliver on our promises!

LASER CUTTING

- Over 50,000 SF dedicated laser cutting facility
- 7 flatbed lasers 2D and 3D – max 6x12 ft bed, 1" thick

LASER TUBE CUTTING

- Laser tube cutting – max 27 ft tube, 6" diameter
- Wide variety of automatic features that reduce operator workload, providing optimum productivity and quality

FABRICATION

- 100,000 SF facility dedicated to fabrication and welding
- Multiple robotic welding cells
- AWS certified welding specialists
- Over 30 state of the art manual welding cells

TUBE BENDING

- 18-axis servo bender
- 3" 11-gauge wall thickness
- Unprecedented repeatability
- High-volume production

STEEL STAMPING

- 50,000 SF facility dedicated to stamping
- 27 presses 88 - 1000 Tons with bed sizes up to 84"
- Deep draw
- All tooling done in-house, expediting custom part prototyping

WATERJET CUTTING

- 7x13 ft table
- Dual head machine
- Cuts ferrous and non-ferrous materials up to 6" thick

FORGING

- 1000 Ton Ajax, 750 Ton Clearing, 500 Ton Clearing

- Veteran-owned small business • ISO-9001:2008 certified •
- Prototype to high-volume production • Made in the USA •
- Value-added services – assembly, project consulting, packaging, laser etching, welding
