

Steel Stamping

Industry experts for over 65 years

Livonia Tool & Laser: the steel stamping field expert with over 65 years industry expertise. Our stamping facility dedicates over 50,000 sq. ft to deep draw and prototype stampings

We offer the most complete variety of steel stacking caps and targets in the world - with our wide range of products, we are able to meet and exceed your material handling needs.

Capabilities:

27 presses from 88 to 1000 tons
Bed sizes up to 84'
Deep draw stampings

All tooling created in our in-house tool room, which expedites custom part prototyping.
