

# WaterJet Cutting

[www.livoniatool.com](http://www.livoniatool.com)

With Water Jet Technology, pressurized water and abrasives create a precise cutting stream on virtually any material.

- CNC accuracy on any hard material up to 6" thick
- Cuts ferrous or non-ferrous, metal, composites, stone, or glass
- 7 x 13 ft. bed size
- Dramatically reduces secondary finishing
- Eliminates burrs and heat distortion
- Typical tolerances between 0.003 and 0.005 in.
- Dual head machine
